

I vote for the FCC to NOT implement any proposal that would lessen Indiana's Telephone Privacy law protection. The present law saves me many un-nessary steps as well a lot of inconvenience as I am disabled. The calls have been reduced to five a month instead of the up to five a day before. Don't lessen an effective law. Keep Indiana citizens protected. It is important to me to keep my telephone privacy and no unwanted calls. Thank you for your consideration. Joan Hartman
